**GALLONS FOR 25**

Not of the preparations of coloring matter and essential oils so often sold under the name of rootbeer, but of the purest, most delicious, health-giving beverage possible to produce. One gallon of Hires' is worth ten of the counterfeit kind. Suppose an imitation extract costs two cents less than the genuine Hires; the same amount of sugar and trouble is required; you save one cent a gallon, and get a healthful imitation in the end. Ask for HIRE'S and get it.

## OVER THE SEA TO SKYE.

Sing me a song of a lad that is gone.  
Say, could that lad be I?  
Merry of soul, he smiled on a day  
Over the sea to Skye.

Mull was astern, Egg on the port,  
Rum on the starboard bow;  
Glory of youth glowed in his soul.  
Where is that glory now?

Sing me a song of a lad that is gone.  
Say, could that lad be I?  
Merry of soul, he smiled on a day  
Over the sea to Skye.

Give me again all that was there,  
Give me the sun that shone,  
Give me the eyes, give me the soul,  
Give me the lad that's gone!

Sing me a song of a lad that is gone.  
Say, could that lad be I?  
Merry of soul, he smiled on a day  
Over the sea to Skye.

Billow and breeze, islands and seas,  
Mountains of rain and sun,  
All that was good, all that was fair,  
All that was me is gone.

— Robert Louis Stevenson.

## A Dainty Summer Costume.

The material of the gown is summer silk showing a blue satin stripe upon black. The skirt is made with the usual flare, and while it is stiffened and stands out well still it does not appear, as the skirts that are overstiffened, to stand out beyond the underskirts. The bodice is slightly fitted in the back and draped across the front, writes Isabel A. Mallon in The Ladies' Home Journal. A square yoke of blue satin, like the stripe, is overlaid with coarse black lace, and the collar is of the black lace also, with two tiny rosettes in blue ribbon, one at each side of the center of the front. The sleeves are large and so lined that they stand out well, shaping into cuffs of blue satin overlaid with black lace. The belt is of broad blue satin ribbon folded about the waist, and falling in two long ends at the back, so that its width and beauty are seen.

## Girls Save a Building From Burning.

The credit of saving the large railroad restaurant from destruction by fire at Rockingham Junction a few nights ago is due to the young ladies employed at the restaurant. Manager Graves gave each girl a water pail, and they mounted the roof, and by a systematic arrangement the water was passed up to them one pail at a time and emptied on to the slowly burning timber whenever it blazed out anew. It was an interesting sight, and the railroad officials have paid them a deserved compliment. Manager Graves made everything pleasant for all who assisted in saving the property. The female fire brigade is a grand success. — Manchester (N. H.) Union.

## Miss Agnes Blackadder.

Dundee is becomingly proud of having produced the first lady M. A. of St. Andrew's in the person of Miss Agnes Blackadder of Broughty Ferry. Miss Blackadder was a distinguished pupil of a Dundee high school, where she carried off many prizes, and has done well at University college, where she is studying medicine, being one of the two pioneer "lady medicals" to whose agitation is due the throwing open to their sex of the Royal Infirmary at Dundee for the purposes of clinical research. Miss Blackadder, who is only 19, is a very pretty girl. — Glasgow Mail.

## Women's Voting.

Some can remember when nine people out of ten laughed at the idea of women's voting. Part of the women are hoastly opposed to woman suffrage on principle, believing it to be an injury to society, and others do not want to vote because it would give them trouble to inform themselves how to cast their ballots properly. When the latter see the duty they owe to others in helping to secure pure government, the majority of women will ask for woman suffrage. — Boston Morning Star.

## Head of the List.

Miss Annie Hoyt of Hillsboro, O., has carried off the faculty gold medal of the Palte Medical college in Cincinnati with marks 99.93 out of a possible 100. At the annual reunion of the Alumni association of the college in the Scottish Rite cathedral Miss Hoyt responded to the toast "The Class of 1895."

## The Effect.

When women get to voting at all elections and for all candidates, the problem of street cleaning and proper sanitary care of cities will be solved. In addition to the causing of a decided improvement in the morals of candidates. — Maudsfield (O.) News.

## Bravery Rewarded.

The Hamare society of Massachusetts has presented its medal for bravery shown in saving life to Jennie C. Campbell and Mary A. Driscoll of Boston, who on March 1, at great risk to themselves, rescued a little boy from being burned to death.

We suppose the Ohio women, now that they have had a taste of suffrage, will desire a further extension of the franchise. That may be the result. — Cincinnati Gazette.

The woman suffrage amendment to the Rhode Island constitution was discussed in the senate on April 24 and was referred to the next legislature.

The foundation stones were lately laid for the new hall of residence for women students in connection with Aberystwith college, Wales.

## FREE COINAGE HELPS MEXICO

It will now be in order for the "party before prosperity" men to attack Senator Romero, the Mexican Minister at Washington. In an article in the July number of the *North American Review* on the Silver Standard in Mexico, Senator Romero says it encourages very largely the increase of export of domestic products. It also stimulates the development of home manufactures, the price of foreign commodities being so high that it pays well to make them at home.

Senator Romero lays great stress on the fact that the price of silver abroad is so low that it is unprofitable to export it. The circulation is therefore increased, so that there is now an ample supply of money in the banks. This stimulates industry, maintains prices and increases the demand for labor. On the other hand he points out that the silver standard has greatly reduced importations, and that the import duties, which until recently were the largest source of Mexican revenues, are therefore, much diminished.

What a lesson Mexico is giving the United States. There, money is abundant, stimulating enterprise and increasing a demand for labor; here money is scarce in the hands of the people, paralyzing enterprise and diminishing the demand for labor. There the silver standard protects home industries much better than import duties, as the high prices of foreign commodities, which have to be paid for in gold, stimulates home manufacture, as it pays well to make goods at home; here we have money which Europeans want and rely on tariff duties to prevent foreign competition. There they issue no bonds to European gold syndicates, but coin their silver into legal tender money instead of paying interest abroad; here with every facility for coinage, silver, we store our bullion in the Treasury vaults, where it is as useless as cobbles stones, and issue interest-bearing bonds for gold to pay expenses. There the government is conducted in the interest of the masses; here it is run for the benefit of the classes. There they are not cursed with scheming politicians, who in hope of political preferment allure the unwary into supporting the gold clique; here we are ruled by such persons, and while a few profit by it the many are impoverished.

## SIBLEY NOT A CANDIDATE.

Ex-Congressman Joseph C. Sibley of Pennsylvania and General A. J. Warner of Ohio addressed a large audience at Pueblo, Colorado, last Thursday night on the silver question. Both advocated the nomination of a free coinage candidate for President regardless of party. They said that Cameron of Pennsylvania, Teller of Colorado or any other men of national reputation who placed the renomination of silver above party success, would be acceptable.

Mr. Sibley who has been favorably mentioned for the Presidency because of his attitude on the silver question and his character as a public and private citizen, has repeatedly proclaimed from the platform that he is not a candidate for President, but would serve in the ranks of any party that fought under the silver banner, reiterated the assertion at Pueblo and emphatically declared that he is not a candidate for the nomination. It does not follow however, that he will not be. He believes in the principle that the office should seek the man, not the man the office. He has many qualifications for the position. He favors a moderate tariff, the coinage of gold and silver on equal terms at the mint, the issuance of non-interest-bearing Government notes, instead of interest-bearing Government bonds. He is engaged in agricultural pursuits, as well as manufacturing enterprises and was elected to Congress by the Democrats and Populists of his district. He was one of the most logical speakers in Congress, is not a professional politician and never sought office and never held any until elected to Congress two years ago last November. He was a general favorite of the free silver men in Congress and he and Teller of Colorado, who declared that he has cast his last vote for a Presidential Candidate, who is not unequivocally for free coinage, on a free coinage platform, would, beyond reasonable doubt carry the election in 1896.

WHARTON BARKER, a millionaire Philadelphia banker, says if he had the power he would open the mints to silver. He does not want monometallism, but if his vote could settle the question the mint doors would be thrown open at once without wasting time consulting England. There are over two thousand people in Nevada who are not millionaires and who would be benefited by free coinage who would not follow the example of Millionaire Barker, because John Sherman and Grover Cleveland do not advise them to do so.

The Mexican Government is placing a tax on all gold and silver ores exported from the country. That ought to satisfy those who a few years ago wanted a tariff placed on all ores shipped from Mexico to the United States. Political economists considered it detrimental to the United States to give employment to furnaces reducing Mexican ores and Mexicans now think it would benefit their country to have the ores worked at home. Possibly both are right, though it is probable that one or the other is wrong.

## THE COLIMA DISASTER.

## The Wife of a Baron Kills Herself in New York.

## A GIRL'S FATAL MISTAKE.

## A Mother Kills Her Daughter and Then Herself.

## SUICIDE IN NEW YORK.

## The Wife of Baron De Grimm Kills Herself.

NEW YORK, June 1.—Mme. De Grimm, wife of Baron De Grimm, a well-known artist of this city, committed suicide last evening, by shooting. Mme. De Grimm was an Austrian and married the Baron in Vienna 18 years ago. She has one child, a girl 10 years of age. Two months ago Mrs. De Grimm complained that she was being watched by strange men, who took note of all her actions. The Baron called his family physician. He said the delusion would pass away in a short time, but she did not mend.

De Grimm, upon being notified, found his wife had gone to the bathroom and shot herself with his pistol. "I had feared for some time my poor wife would do this," he said. "I have suspicion that she would have shot herself one day when we lived on Fifth-street only that I returned home unexpectedly. Whether she had a revolver then I cannot say, but she acted in a flustered, excited way, as if my sudden appearance had deranged some preconceived plan."

## AN EXILE FROM HAWAII.

## He Wants to Return to the Islands.

SAN FRANCISCO, June 1.—P. M. Rooney, exiled from Honolulu after a recent uprising, has made public his statement to the United States Government and says he is an American citizen and was chief overseer of the Spreckels Hawaiian plantations and business manager of a Royalist paper. He was arrested by the Citizens Guard prior to the rebellion, about which he claims he knew nothing, and kept in an unhealthy prison forty-two days, agreeing to exile to regain his liberty. Now he wishes to return to Honolulu, where are his family and property.

## THE ILL-FATED COLIMA.

No Details Expected Until Next Week. SAN FRANCISCO, June 1.—Nothing new was received from the scene of the Colima disaster to-day. The Pacific officials do not expect the details of the foundering of the steamer until the San Juan arrives next week. Third Officer Hanson is on board. The Pacific Mail officials deny the story that the Colima had a load of dynamite on board, and was overloaded and her cargo badly stowed.

The number of rescued passengers and crew is now given as thirty-one, with the possibility of others saved on a raft managed by Purser Wafer.

## A MOTHER'S DEED.

She Kills Her Daughter and Herself. MINNEAPOLIS, Minn., June 1.—Mrs. Martha Elias and daughter Annie were found to-day waltering in their own blood in rooms over a drug store on Nicollet avenue. The old lady evidently shot the girl as she slept and then turned the revolver on herself, blowing the top of her head off. They were well-to-do. Mrs. Elias might have been affected by the violent death of her husband eleven years ago.

## Postoffice Robbers Arrested.

NEW YORK, June 1.—Joseph Killigan, Charles Allen and Harry Russell have been arrested here. According to Inspector Holden the Soranton Postoffice was robbed by them in August. During the absence of Postmaster Vanding and his assistants at noon the thieves entered the vault by an inner steel door and took over \$8,900 worth of postage stamps. On December 3d the postoffice at Hoboken was entered during the absence of Postmaster Curran and \$6,561 worth of stamps taken. Then on April 3d last the postoffice at Springfield, Ill., was robbed of \$6,000 worth of stamps.

## Mrs. Mathews' Death.

SAN FRANCISCO, June 1.—The Coroner's jury to-day rendered a verdict that Jennie Mathews died from poison administered by unknown parties. Coroner Hawkins refused to approve the verdict, claiming that the evidence showed O. W. Winthrop had given the poison.

Winthrop is still in jail awaiting a preliminary examination in the Police Court.

## A Fatal Mistake.

SAN FRANCISCO, June 1.—Annie Bassou, aged 21, died this morning through drinking acouite flumient in mistake for malt, both bottles being on the table near her and of the same size. She had used acouite for injuries received while bicycling yesterday. She died in great agony.

## First Wheat of the Season.

PORT COSTA, Cal., June 1.—The first car of new wheat shipped this season arrived this morning from J. M. & O. B. Kimberlain of Paso to Tom Blum & Co. For the past three years the same growers have shipped the first wheat to the same consignee.

## Miners Decide Against a Strike.

PITTSBURG, June 1.—The National Bituminous Miners' organization has decided against a general strike, and has declared the 60-cent rate in force in Pittsburgh district and West Virginia the basis of settlement in other districts. A joint meeting of miners' delegates and mine owners will now be called to settle the Ohio, Indiana and Illinois rates.

## Wholesale Poisoning.

GUERNEVILLE, Cal., June 1.—The town has been overrun with dogs, some owning five howling canines and distracted the citizens nightly. Last night strychnine-laden meat was distributed. This morning there are 40 dead dogs. Poisoned pups are in every street and alley. The identity of the poisoners is unknown.

## The University Gymnasium an Assured Thing.

The committee having charge of the entertainments for the benefit of the University Drill Hall, reported this morning as follows: Net receipts from entertainments, \$950 74; donated by the Student Record, 175; donated by D. B. Lyman, \$100; donated by J. P. Woodbury, \$25; donated by John Bradley, \$25. Total, \$1,275 74.

In order that the students may soon enjoy the benefits to be derived from the gymnasium and drill hall, it was decided at a meeting of the Faculty held June 1st, that if this fund could be raised by popular subscription to \$2,000 they would begin immediately the construction of a gymnasium and drill hall to cost \$4,500 to \$5,000 and personally guarantee its completion. The following committees were appointed to solicit subscriptions:

For the Faculty—J. E. Stubbs, J. W. Phillips, W. R. Hamilton and R. D. Jackson.

For the student body—F. M. Lincoln, Howard Lackey and J. M. L. Henry.

During the day and subsequent to appointment of the committees on subscription over \$600 was added to the amount.

## BREVITIES.

The Palace Dry Goods and Carpet House offers at special sale this week a splendid line of lace curtains, which are full length and good quality, at the low price of 75 cents a pair. The Palace has just received and opened an entire new line of duck suitings, so stylish this season. Go and see them.

Wells, Fargo & Co. held an "old horse" sale yesterday afternoon. The packages went lively and brought fair prices. The crowd had lots of fun at the expense of some of the buyers, as one would open a package and discover that he had purchased a few boxes of pills, powders or a bottle of medicine.

Charles Stewart, the young man who had his eye seriously injured by a barbed wire two or three days ago, and left for San Francisco to have it treated, sent word to his folks that the oculist had made an examination and believed that the eye could be saved, but it would be several days before he could tell.

Thomas Manning employed on the narrow gauge had his right hand severely injured Friday afternoon by being caught in the truss of the steam shovel while working between trestles 1 and 2. Fortunately no bones were broken. He came to town for medical aid and is sojourning at the Russ House.

Lord Sholto Douglass, a son of the Marquis of Queensberry, has married Loretta Addis, a dive waitress, at San Jose, California. He paid the Justice of the Peace who tied the knot three dollars and wanted the marriage kept secret. Queensberry whipped one of his sons at the Wilde trial in London, and no doubt he would like an opportunity to whip another for marrying a dive damsel.

Geo. Smith, formerly a clerk at the Riverside Hotel, will open a neat little cigar store adjoining Aleck Dromick's Elite Saloon this morning. George will keep the very best goods in his line and will be ready to meet any and all comers who want a good cigar or plug of tobacco. He has a cozy little room in the rear of his store where a quiet game of whist can be enjoyed. Call on him and give him a send off.

## THE JUNE "FORUM"

It Covers an Unusual Range of Topics.

The June Forum is an unusually suggestive number of that standard magazine. The currency question, the subject that is uppermost throughout the country, is discussed by the author of "Coin's Financial School" under the title of "The Free Silver Argument." This argument is answered directly, statement by statement, by Hon. John De Witt Warner, a member of the Committee of the House of Representatives, and a leading spirit of the New York Reform Club.

Another feature of the June Forum is a group of three educational articles; a discussion of Dr. Nordau's popular book on "Degeneration," by Dr. Charles A. Dana of New York, a distinguished specialist of nervous diseases; and an article of historical as well as practical value; "The Growth of American Nationality," by General Francois A. Walker.

In addition to these leading features, other articles are "Studies of Notable Men; Joseph Chamberlain," by Justin McCarthy, the Irish leader in Parliament; "The Future of the Great Arid West," by E. V. Snoddy, of St. Paul; "Mr. Kipling's Work So Far," by William Henry Bishop, the novelist; "Why the American Voice is Bad," by Fletcher Osgood, a scientific student of elocution; "The Only Cure for Slums," by Dr. E. R. L. Gould; and the usual article on business under the title of "The Improving Condition of Business."

## A Household Treasure.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house, and his family have always found the very best results follow its use; that he would not be without it, if procurable.

G. Dykeman, Druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy that he has used in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at S. J. Hodgkinson's Drug Store. Regular size 50c. and \$1.00.

## A Party at the Pavilion.

A dancing party will be given at the Pavilion Friday evening, May 31st, under the auspices of the ladies of the "Twentieth Century Club" for the benefit of the Public Reading Room and Library of this city. Music by Peck's Orchestra under the leadership of Professor Zimmer of Virginia City. Tickets, \$1 a couple. Refreshments will be served in the hall. m28d

The Summer girl is wearing a blouse waist with sleeves larger than ever, a skirt with godet plaits, a jaunty yachting cap, but no veil. She has found that her complexion is her strong point and that when she takes a cup of Parks' Tea at night it keeps it fresh and clear and that a little sunburn is an added attraction. She finds, too, that she can be more athletic if she never misses her cup of Parks' Tea. Sold by S. J. Hodgkinson.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

## VIAGI

A physician of Reno says he would have more faith in Viagi, if we did not claim so much for it. Doctor, how can we help it, if it makes the cure for instance? Its use in Mr. Hunter's case is entirely out of its legitimate line, yet note the result. He was suffering intense pain, the physician expected his medicine to control it, in from two to three days. He used it three weeks and the pain was still as great. He was kept under opiates, to which I objected as I believe in curing pain instead of stupefying the body. The doctor said it was not probable he would ever get out again, and we must make him as comfortable as possible. I was not satisfied, I paid the doctor and sent for another. He assured me all had been done that could be, that he would have prescribed about the same. I discarded all medicine and used Viagi. In one night, with nothing but hot and cold water and Viagi Cerate, I gained control of the pain, and in two or three days not a vestige was left, and in two weeks he was on the street. There are other cases here just as wonderful. I will be glad to explain its uses to all who call.

Every room is made more cheery by one or two growing plants here and there, even if they be merely green palms, but a blooming plant adds a

wonderful brightness to a room where the sun seldom shines. The pictured stand is made of bamboo or rattan and is decorated with satin ribbons, either in foliage green or a color to match the blossom of the plant.

The Latest.  
An odd New York class is called the "wallflower," and here the girls and women who are backward in the small arts and graces which go to make woman popular in the smart set are taught. For instance, the woman who never can see a joke is coached to pretend she sees it. Her facial expression is made to answer for the lack of quickness, and she is taught to look puzzled - which doubtless comes quite natural to her - then pleased, and then her lips curve into a smile, and she laughs heartily in appreciation. The women who can't play cards are taught all the popular games, as well as a little chess.

The woman who can't get interested in news and knows she is stupid is given a daily list of great events much talked about, which are going on, and her maid is instructed what to clip out for her morning perusal, thus giving her the drift of affairs without infringing too much of her time and patience. The woman who has no small talk at her command, or who can't talk at all, is also taken in hand with great success. She is taught how to talk and what to talk about and how to listen. The unmentionable things for ordinary conversation are religion, politics, family history, personal experiences, long winded stories and spiteful remarks - Brooklyn Citizen.

A Red Letter Day.  
Under the heading, "A Red Letter Day For Woman Suffrage," Zion's Herald says:  
The friends of this cause will not soon forget April 18. For on that day the Rhode Island senate committee on special legislation reported back a bill granting the right of suffrage to women on all questions that can legally come before town, ward or district meetings. On the same day in Salt Lake City a motion in the constitutional convention to reconsider the clause adopting woman suffrage was killed by a decisive majority. More important than all, however, on the same day the New York senate, by a vote of 20 to 5, passed a resolution which proposes to submit to the vote of the people of that state a constitutional amendment giving to women the right of suffrage. The same resolution had passed the assembly by a large majority. This triple victory on a single day will inspire with fresh courage the champions of this reform.

A Philanthropic Duchess.  
Here is a good story of the Duchess of Devonshire.  
Her grace likes to go among the duke's people as "my lady beautiful." One day the duchess met a tenant on one of the ducal estates, and the man, questioned by her grace, said that "the water came in here and got out there, and this wanted repairing and that." "My good man," said the duchess, "you have only to complain to Mr. Blank, the steward." To this he replied that he had done so without avail. "Then I'll speak to the duke," "Ah, my lady, the duke is in the steward's hands and won't do nothing." "Then," said the duchess, "I will punish them both by ordering a new house to be built for you." And one is now in course of construction.

Sarah A. Chadwick.  
Sarah A. Chadwick was surgeon of a volunteer cavalry regiment, the Seventh Illinois, in 1861. The regiment was stationed at Cairo, and Miss Chadwick acted as its assistant surgeon for several months. The regiment wanted her regularly appointed in commission, but the war department was unwilling to appoint a woman. For these services congress voted her \$800 at its last session. Miss Chadwick is a graduate of Oberlin college.

The custom of writing "Present," "Addressed," "Kindness of," and "Favored by" on letters sent by a private messenger is said to be going rapidly out of fashion. The name of the person, the street and number are all that is now usually written.  
Mrs. Leland Stanford sent Miss Anthony a free pass for herself and Miss Shaw over all the California railroads and a check for \$400 to pay the other expenses of their western trip.  
**PECULIAR** in combination, proportion and preparation of ingredients, Hood's Sarsaparilla possesses great curative value. You should TRY IT.
